Student Report

IBT
International Benchmark Test

Name:	VIJAYA SARATHI KASEEBHATLA
Student ID:	IND388_21KS626
School:	21K SCHOOL
Grade:	4

This IBT report provides results for the International Benchmark Test (IBT) taken between Nov '21 – Feb '22 in the following subject:

English Level 4

Performance on Each Question

Your result for each question.

Summary of Results by Strand

The number and percentage of questions you answered correctly for each strand compared against all students.

Question Performance by Strand

Question's difficulty and student performance chart.

Green squares represent correct responses and red circles indicate incorrect ones. The position of the question on the chart indicates its difficulty level along the achievement scale. The dotted line across the report shows the student's scale score.

Percentile Rank

Your percentile rank in school and your country / region.

The percentile rank shows your standing relative to the other students who took the test. For example, a percentile rank of 65.3 means this score is equal to or better than 65.3% of students who took the test.

Scale Score

Your scale score for the test.

All results are equated on a common scale which enables you to track your performance between years. This means you can see what progress you are making from one year to the next. The average scale score are shown so that you can compare your results to other students.

Described Achievement Scale

Your scale score is shown on the IBT Described Achievement Scale.

The Described Achievement Scale describes increasing levels of skills and understanding demonstrated in the tests for this subject. These descriptions are divided into different sections called bands. The chart shows which band your scale score falls within so that you can see the level you are working at. You will have mastered some of the skills described at your band level and most of the skills described in the bands. Students normally move up the band levels as they move through their years at school.

Further information on IBT reports and Privacy Information relating to student records is available at https://ibt.acer.org.

Performance on Each Question

No.	Question Description	Strand	Result
1	Locates directly stated information in a short text.	Reading	✓
2	Interprets a personal statement in a short text.	Reading	✓
3	Locates paraphrased information in a short text.	Reading	✓
4	Identifies a commonality between two short texts.	Reading	✓
5	Locates rephrased information in a short section of a text.	Reading	✓
6	Identifies the reason for a narrator's theory in a narrative text.	Reading	✓
7	Locates key information embedded in a narrative text.	Reading	✓
8	Identifies key evidence in a narrative text.	Reading	✓
9	Interprets a narrator's behaviour at the end of a narrative text.	Reading	✓
10	Interprets a minor character's behaviour in a narrative text.	Reading	✓
11	Chooses the correct preposition to complete a sentence.	Grammar	✓
12	Chooses the correct verb form to complete a sentence.	Grammar	✓
13	Chooses the correct conjunctive adverb to complete a sentence.	Grammar	×
14	Chooses the correct preposition to complete a sentence.	Grammar	✓
15	Chooses the correct transitive verb to complete a sentence.	Grammar	✓
16	Identifies that a question mark is needed to complete a sentence.	Punctuation	✓
17	Identifies the correct punctuation for a possessive ending with "s".	Punctuation	✓
18	Identifies that commas are not required in a sentence.	Punctuation	✓
19	Identifies the correct use of an apostrophe in a contraction.	Punctuation	✓
20	Identifies the correct use of a colon in a sentence.	Punctuation	✓
21	Locates a paraphrased detail in a short information text.	Reading	✓
22	Reads across a paragraph to interpret a detail in a short information text.	Reading	✓
23	Interprets a sentence in a short information text.	Reading	✓
24	Locates a detail in a short information text.	Reading	✓
25	Interprets a sentence in a short information text.	Reading	✓
26	Identifies the correct spelling of "February".	Spelling	✓
27	Identifies the correct spelling of "least".	Spelling	✓
28	Identifies the correct spelling of "several".	Spelling	✓
29	Identifies the correct spelling of "diary".	Spelling	✓
30	Identifies the correct spelling of "calendar".	Spelling	✓
31	Identifies a synonym for the word "enveloped" in context.	Vocabulary	✓
32	Identifies a synonym for the word "petrified" in context.	Vocabulary	✓
33	Identifies a synonym for the word "fortunate" in context.	Vocabulary	✓
34	Identifies a synonym for the word "intense" in context.	Vocabulary	×
35	Identifies a synonym for the word "voyage" in context.	Vocabulary	✓
36	Interprets a description of the main character's thoughts in a narrative.	Reading	✓
37	Interprets a character's opinion in a narrative.	Reading	✓
38	Locates the cause of a decision made by the main character in a narrative.	Reading	×
39	Identifies a character's nature in a narrative.	Reading	✓
40	Predicts the main character's likely emotions based on a narrative of events.	Reading	✓

Performance on Each Question

No.	Question Description	Strand	Result
1	Determines a value from a table.	Chance & Data	×
2	Calculates a difference between values given in a table.	Chance & Data	✓
3	Solves a word problem involving sharing fractions.	Number	✓
4	Identifies country flags with 2 lines of symmetry.	Space	×
5	Identifies the position of an object after a 3/4 turn anticlockwise.	Space	✓
6	Applies multiplication facts to complete a number sentence.	Number	✓
7	Solves a problem requiring the addition and division of 1 and 2-digit numbers.	Number	✓
8	Reads the height of an object from a scale increasing in twos.	Measurement	✓
9	Identifies the compass point to the left when facing a given compass direction.	Space	✓
10	Determines the multiplication statement for a given array.	Number	✓
11	Applies concepts of multiplication to a given array.	Number	✓
12	Determines a location on a number line showing probabilities in words.	Chance & Data	✓
13	Follows left and right directions to locate a place on a map.	Space	×
14	Uses a scale on a simple map to determine distance.	Space	×
15	Uses distance and time to determine the fastest walker.	Measurement	✓
16	Reads from a tally chart.	Chance & Data	✓
17	Identifies a composite shape.	Space	✓
18	Calculates the volume of a liquid in multiple bottles using a simple fraction.	Measurement	✓
19	Calculates the total from a bar graph.	Chance & Data	✓
20	Determines the probability of an event as a fraction.	Chance & Data	✓
21	Identifies the new shape created by combining two shapes.	Space	✓
22	Interprets data in a bar graph.	Chance & Data	✓
23	Predicts the object that is most likely to be selected from a group.	Chance & Data	✓
24	Estimates the length of an object using indirect measurement.	Measurement	✓
25	Identifies a line of symmetry.	Space	✓
26	Uses proportional reasoning and a ruler to determine an unknown length.	Measurement	✓
27	Identifies the pictorial representation of a division of a group.	Number	✓
28	Solves a multi-step word problem involving multiplication and addition.	Number	✓
29	Solves a proportional reasoning problem involving a non-standard unit of volume.	Measurement	✓
30	Counts backwards in thirds from a multiple of one third.	Number	✓
31	Compares a scale to measure the volume of an object.	Measurement	✓
32	Solves a problem requiring the calculation of change to the nearest 5 cents.	Number	×
33	Divides an amount in dollars and cents by a whole number.	Number	✓
34	Identifies the place value of a digit in a given number.	Number	✓
35	Solves a problem involving a fraction of an amount.	Number	✓
36	Uses a number line to determine equivalent fractions.	Number	×
37	Solves a problem involving the relative mass of objects.	Measurement	✓
38	Identifies the greatest number in a group of four 5-digit numbers.	Number	✓
39	Uses place value to compare numbers.	Number	✓
40	Finds the difference between numbers in the tens of thousands.	Number	✓

Performance on Each Question

No.	Question Description	Strand	Result
1	Identifies a difference between two insect life cycles.	Life Sciences	✓
2	Classifies a feeding relationship in a habitat.	Life Sciences	✓
3	Identifies a material that is not naturally occurring.	Physical Sciences	✓
4	Draws a conclusion based on evidence.	Physical Sciences	✓
5	Identifies a non-contact force.	Physical Sciences	✓
6	Identifies changes that would lead to a population increase.	Life Sciences	✓
7	Interprets data on a bar chart.	Earth Sciences	✓
8	Identifies an aspect of a study design from collected data.	Earth Sciences	✓
9	Knows the conditions needed for a sundial to work.	Earth Sciences	✓
10	Identifies materials that are man-made.	Physical Sciences	✓
11	Distinguishes between liquids and gas.	Physical Sciences	✓
12	Understands that living things are suited to specific habitats.	Life Sciences	✓
13	Identifies that plants require water for growth.	Life Sciences	✓
14	Identifies the Moon as being the closest part of the solar system to Earth.	Earth Sciences	✓
15	Identifies what forms a specific landscape feature.	Earth Sciences	✓
16	Interprets information about sensitivity in plants.	Life Sciences	✓
17	Knows that leaves make food for plants.	Life Sciences	✓
18	Identifies that garden waste can easily decompose.	Physical Sciences	✓
19	Interprets data from a graph to find an overlapping egg laying time.	Life Sciences	✓
20	Uses graphical information to identify birds laying eggs in a given month.	Life Sciences	×
21	Knows the location of the Earth in the Solar System.	Earth Sciences	✓
22	Identifies path of light rays in a given situation.	Physical Sciences	×
23	Knows that all fish have gills.	Life Sciences	✓
24	Identifies the part of river likely to be the least polluted.	Earth Sciences	✓
25	Understands how the silt brought down by a river impacts its movement.	Earth Sciences	✓
26	Understands that melting can cause objects to change shape.	Physical Sciences	✓
27	Predicts the amount of evaporation in two different conditions.	Physical Sciences	✓
28	Understands that evaporation is faster from larger surfaces.	Physical Sciences	✓
29	Interprets data in a table.	Life Sciences	×
30	Makes a simple prediction based on tabulated data.	Life Sciences	✓
31	Identifies a difference in the properties of two materials.	Physical Sciences	✓
32	Identifies a plausible explanation for an observation.	Physical Sciences	✓
33	Identifies that gas is the only compressible type of matter.	Physical Sciences	×
34	Analyses information in a pie chart.	Earth Sciences	✓
35	Identifies the cause of an environmental change in a habitat.	Life Sciences	×
36	Identifies a vital part of an animal's habitat.	Life Sciences	✓
37	Understands that meaning of volume.	Physical Sciences	✓
38	Identifies a force that resist movement.	Physical Sciences	✓
39	Identifies the stages in the life cycle of moth.	Earth Sciences	✓
40	Predicts the consequence of the loss of one species in an ecosystem.	Life Sciences	✓
